

# Business Intelligence & GIS Tour of Melbourne

9-13 May 2011

Save this week in your calendar!

9-13 May 2011

Melbourne, Australia

Mark your calendar to join the Business Intelligence (BI) & GIS Tour of Melbourne. This week-long educational tour combines site visits and focused presentations from diverse organizations in different industries. It provides invaluable opportunity to learn best practices in geographic information systems.

The tour also provides delegates the chance to learn tools and technologies in BI to better support operations and decision making.

## Why Join?

- Learn best practices in implementing and using GIS including data management in enterprise
- Learn how to implement web-based BI using both RDBMS and GIS
- Visit different organizations in Australia who successfully deployed Esri GIS
- Experience business applications of GIS and see excellent web portal
- Network with other UAE GIS experts
- Increase your knowledge and experience to the good of your organization and UAE
- Focused presentations and visits
- Special one-off tour

For more information, please call Mohammed Issa at +971-6-5750055.
