GMDC

GISWORX MOBILE DEVELOPER CHALLENGE

JOIN THE CHALLENGE!

For the last three years, student developers from different universities around the UAE have been competing in GMDC, showing off their creativeness and resourcefulness in making some of the coolest applications in iOS, Windows, and Android mobile devices. These apps address real problems through the use of maps and GIS.

Participate in our next mobile challenge and get exposed to a GIS community of over 1000 professionals and decision makers from the Middle East during our event, GISWORX '15 to be held on 20 April 2015 in Dubai. We will award the best mobile GIS applications built on Windows, Android or iOS mobile platform.

20 April 2015
Al Bustan Rotana Hotel
Dubai
